

# INTERNSHIP

## INNOVATION & TECH

**SILICON VALLEY - FALL 2024**

### ARE YOU OUR NEXT INTERN?

Join us as Innovation Intern in Silicon Valley at Innovation Centre Denmark. You'll get hands-on experience in innovation, entrepreneurship, and business scaling, contributing to the growth of Danish companies in tech, sustainability, and diplomacy. Expect great personal and professional development, enhanced business and communication skills, as well as learning during your internship.

#### KEY RESPONSIBILITIES

- Assist Danish tech startups in scaling through Silicon Valley.
- Analyze trends and best practices; create reports for knowledge sharing.
- Advocate for Danish government and stakeholders in research and innovation in California.
- Develop networks and partnerships between Danish and Californian innovation communities.
- Support scholarship programs and organize entrepreneurship events for Danish students in USA.

We're searching for a curious, flexible candidate to handle diverse projects in a dynamic, fast-paced setting. We value key qualities such as independence, deadline management, and prioritization skills. To thrive in this role, you should have a keen interest in innovation, entrepreneurship, digital tech, and sustainability. The ideal candidate is an analytical, open-minded team player with a positive attitude, capable of individual and collaborative work. It is a prerequisite that you have experience in graphic content creation and ideally proficiency in using Canva.

Applicants should be enrolled in a Danish higher education institution and must be fluent in Danish and English. We value mindset and skills over specific fields of study.
