PhD ACADEMY

NOVEMBER 22-24, 2023

Contemporary Innovation Theory and Methods

欢迎 WELCOME

 to the cohort of 2023!

The **CICALICS (the China Innovation Circles and Academy Learning, Innovation and Competence Systems) PhD course**, also known as the **CICALICS Academy**, aims to provide an advanced platform for PhD students to develop academic skills and facilitate international exchange and cooperation among students from different countries. As always, this year's CICALICS will consist from invited lectures by renowned scholars in the field of innovation. Additionally, PhD students will be expected to present papers related to their individual research projects, with each presentation receiving feedback from both their peers and academy professors.

CICALICS 2023 is scheduled to take place from November 22 to November 26, 2023.

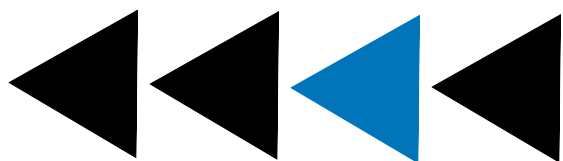

CICALICS 2023 comprises two main parts:

- **CICALICS PhD course (Academy) (November 22-24)**
- **CICALICS Workshop (November 25-26)**

All PhD students are encouraged to participate in both segments.

The **CICALICS PhD course (Academy)** encompasses the following key activities:

- Lectures focusing on topics related to innovation research and methodologies employed in the field,
- PhD project presentations, each lasting approximately 30 minutes, followed by feedback from fellow students and professors,
- Following the Academy, PhD students are invited to partake in the CICALICS Workshop, with or without submitting a paper.
